

Training

Level 2 Grounds: Maintenance and Management

Course description

The key subjects – best working practices, turf standards, risk assessments, to basic equipment requirements, plus more are studied through a progressive one-day IOG Learning course. Delivered by an industry expert, this will provide you with an overview of the knowledge and understanding needed to carry out a range of effective turf maintenance and turf management practices. (Lunch provided)

Some of the subjects covered on this course

- ✓ Need for good working practices
- ✓ Use of standards in turf management
- ✓ Protection and the use of risk assessments
- ✓ Need to identify weeds, pests, diseases and grass
- ✓ Health and safety: need for pre-start checks
- ✓ Routine machinery maintenance requirements
- ✓ Impact of latest pesticide legislation

Is this training day suitable for me?

This course provides an overview of the core areas of turf maintenance and management involved with looking after grounds, playing fields and sports pitches. It will provide you with ideas for reflecting on your current maintenance practices and whether different working practices and approaches might help in improving the effectiveness of available resource use.

What can I do after this course?

Take your next step with Level 3 Grounds: Management, the Level 2 Certificate in Turf Surface Maintenance, or IOG Level 3 Technical Diploma in Turf Surface Management. Maybe, IOG Level 3 Supervisory Management – providing formal qualifications in different aspects of turf management.
