

Training

Level 3 Bowling Green: Advanced Turf Culture

Course description

The key management subjects – soils, drainage and irrigation, to grasses, nutrient levels and IPM, plus more – are studied through a progressive and educational IOG Learning course. Featuring an informative presentation, explore the aspects of turf culture which are applied in managing bowling greens and on completion of this final training step successfully manage pitch playability. (Lunch provided)

Some of the subjects covered on this course

- ✓ Soil problems and how to deal with them
- ✓ Irrigation management on a bowling green
- ✓ Drainage: impact on the surface and playability
- ✓ Grasses: choosing seeds and cultivars
- ✓ Managing nutrient levels for optimum playing surfaces
- ✓ Integrated Pest Management (IPM)
- ✓ Managing Performance Quality Standards

Is this training day suitable for me?

Ideal for the experienced volunteer, or employee and line manager, or just as a refresher for the established employee. With the delivery from an industry expert, explore, develop and reinforce applied technical skills and knowledge, with the latest best practices whilst leading your team to success.

What can I do after this course?

To build on the IOG route, undertake the IOG Level 3 Technical Diploma in Turf Surface Management, or, IOG Level 3 Supervisory Management. These are formal qualifications that explore different aspects of turf management, including the aspect of understanding turf management or leadership and management skills.
