## Level 3 Racecourse: Management Skills

### Course description

The key subjects – health and safety, pesticides and tools, plus more – are studied through a progressive three-day IOG Learning course. Delivered by an industry expert, make a better informed decision in order to determine the effectiveness of your maintenance. This course has been developed by the Institute of Groundsmanship in conjunction with The Racecourse Association Limited. (Lunch provided)

### Some of the subjects covered on this course

- ✓ Communication skills within the racecourse
- ✓ Performance and assessment: surface quality
- ✓ Rooting media and its construction
- ✓ Evaluation of nutrient analysis records
- ✓ Assessment and identification: grass species
- ✓ Pesticides available to assist in the maintenance
- ✓ Tools and equipment required

### Is this training day suitable for me?

This Level 3 course quantifies the supervisory and managerial skills required by the groundsman to manage and control the resources on the racecourse. Plus, demonstrate the management techniques and processes required by the groundsman to produce a safe and consistent racing surface.

### What can I do after this course?

To further build on the IOG route, undertake the IOG Level 3 Technical Diploma in Turf Surface Management – or IOG Level 3 Supervisory Management – providing formal qualifications in different aspects of turf management.
